

Service Plan Terms & Conditions

For SJM Heating service plan signups, including Essential, Standard, Complete and Fix & Join enquiries.

Version: v1.0 **Effective date:** 05 April 2026 **Contact:** info@sjmheating.co.uk

Plan summary

Plan	Monthly price	Designed for	Core inclusions
Essential	£11.00	Newer boilers in suitable working order	Annual boiler service; straightforward monthly cover; subject to boiler eligibility.
Standard	£17.99	Homeowners wanting service plus breakdown support	Annual boiler service; boiler breakdown cover; labour included; priority response wording subject to capacity.
Complete	£23.99	Homeowners wanting the widest level of plan support	Annual boiler service; boiler breakdown cover; parts and labour included; priority response wording subject to capacity.

All plans are subject to eligibility, system condition, safe access, and these Terms & Conditions. Fix & Join is assessed separately and is not guaranteed until SJM Heating has reviewed the boiler/system.

1. Definitions and interpretation

- SJM Heating', 'we', 'us' and 'our' mean the SJM Heating business operating the service plan offering.
- 'Customer', 'you' and 'your' mean the person entering into or applying for the service plan.
- 'Plan' means the selected service plan level shown on the signup form and later confirmed by us.
- 'Fix & Join' means a repair-first route for certain broken boilers, subject to inspection, suitability and acceptance by us.

2. Applying for a plan

- Submitting the online form is an enquiry and application, not automatic acceptance.
- We may request additional details, photographs, service history, proof of address, or arrange an inspection before accepting a boiler onto any plan.
- We may decline, defer, or propose an alternative plan where the boiler or heating system is unsafe, unsuitable, uneconomic to support, beyond the intended eligibility criteria, or where information provided is incomplete or misleading.

3. Eligibility and system condition

- Plans are intended for domestic heating systems unless we confirm otherwise in writing.
- Boilers and connected heating systems must be safe, serviceable, and reasonably maintainable.
- Where a boiler is already broken, displaying faults, heavily worn, incorrectly installed, or otherwise unsuitable, we may require a repair, parts replacement, system works, or Fix & Join assessment before any ongoing plan support can begin.
- Essential is intended for newer boilers and is not available online for boilers stated as broken at the point of enquiry.

4. What the plans are designed to include

- Essential is designed to include one annual boiler service and straightforward monthly cover for eligible boilers. It does not promise unlimited callouts.
- Standard is designed to include one annual boiler service plus boiler breakdown support with labour included, subject to the exclusions and practical limits in these terms.
- Complete is designed to include one annual boiler service plus boiler breakdown support with parts and labour included, subject to the exclusions and practical limits in these terms.
- Priority response means plan enquiries and breakdowns are prioritised ahead of non-plan work where reasonably possible, but it is not a guaranteed attendance time unless expressly agreed in writing.

5. Exclusions and limitations

- Unless we expressly confirm otherwise, plans do not automatically cover pre-existing faults, faults known before acceptance, unsafe appliances, faults caused by sludge/debris, poor water quality, electrical supply issues outside the appliance, third-party workmanship defects, cosmetic defects, asbestos-related works, access scaffolding, building works, decorative making-good, specialist parts delays, or damage caused by misuse, neglect, freezing, flooding, fire or external events.
- System upgrades, rewires, controls upgrades, powerflushing, pipework alterations, radiator replacements, remedial installation works and manufacturer-specific defects may fall outside normal plan support unless stated otherwise.
- We may make temporary safe, diagnostic or stabilising visits where a full repair is not immediately possible due to parts, safety, access or system condition.

6. Appointments, access and attendance

- You must provide safe, clear and reasonable access to the property, boiler and relevant controls.
- Appointments may need to be rearranged where parts are unavailable, weather conditions prevent safe travel, or circumstances outside our reasonable control arise.
- If we attend and cannot gain access, or the boiler/system cannot be worked on safely, we may treat the visit as chargeable or require rebooking.

7. Fix & Join

- Fix & Join is subject to inspection, diagnosis and suitability.
- Any quoted one-off repair/join fee covers only the scope clearly confirmed by us and does not guarantee every possible fault can be resolved within that fee.
- If we determine that the boiler or wider system is uneconomical, unsafe or unsuitable to place on plan, we may instead recommend further repairs, system works or replacement.
- Where Fix & Join is accepted, ongoing plan support starts only once the agreed repair/rectification stage has been completed and we confirm the system is eligible.

8. Payments and price changes

- Monthly prices are those stated for the selected plan at the time of signup unless we advise otherwise during acceptance.
- We reserve the right to correct obvious pricing errors and to review pricing if the boiler/system materially differs from the information supplied.
- Any future price changes will be communicated in advance where required.

9. Cancellation and ending the plan

- You may cancel in line with any cooling-off or cancellation rights that apply to your final plan arrangement.

- We may suspend, decline or end support where payments are missed, appointments are repeatedly missed, information is materially inaccurate, the system becomes unsafe or uneconomic, or abusive behaviour occurs.
- Ending the plan does not remove your responsibility for charges properly incurred before cancellation.

10. Communications and marketing

- We may contact you to administer your enquiry, arrange appointments, confirm eligibility, discuss faults, renewals, pricing, or service matters.
- Where you opt in separately, we may also contact you with reminders, offers or updates. You can opt out of marketing communications at any time.

11. Liability

- Nothing in these terms limits liability where it cannot legally be limited.
- Subject to that, our liability for losses arising from the service plan or enquiry process is limited to direct and reasonably foreseeable loss only and will not include indirect or consequential loss, business interruption, loss of profit or loss arising from conditions outside our reasonable control.
- We do not accept responsibility for delays caused by part availability, manufacturer issues, access problems, third-party contractors, utility failures or other events outside our reasonable control.

12. Complaints and contact

- If you have a question or complaint about the plan, please contact SJM Heating using the contact details provided on our website or by email at info@sjmheating.co.uk.

Important: These draft terms are commercially strong and suitable for launch preparation, but it is sensible to have them checked by your solicitor or legal adviser before public release.
